### ELECTION OF SPECIES REQUIREMENT

#### Application status

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 1, 2001 has been entered.

#### Election of species

2. This application contains claims directed to the following patentably distinct species of the claimed invention. The species are too numerous to iterate each one. The following are examples of the claimed species of nucleic acid molecule comprising a BRCA2 gene:

A. BRCA2 nucleotide sequence comprising exon 15 sequence with T at position corresponding to nucleotide 171 of SEQ ID NO:2 (claim 61(a));

B. BRCA2 nucleotide sequence comprising exon 15 sequence with T at position corresponding to nucleotide 173 of SEQ ID NO:2 (claim 61(a));

C. BRCA2 nucleotide sequence comprising exon 15 sequence of SEQ ID NO:2 (claim 61(c));

D. BRCA2 nucleotide sequence comprising exon 16 sequence of SEQ ID NO:3 (claim 61(c));

E. BRCA2 nucleotide sequence comprising C at position corresponding to nucleotide 1093 of SEQ ID NO:4 (claim 62);

F. BRCA2 nucleotide sequence comprising A at position corresponding to nucleotide 1342 of SEQ ID NO:4 (claims 62-71);

G. BRCA2 nucleotide sequence comprising G at position corresponding to nucleotide 1593 of SEQ ID NO:4 (claims 62, 63).

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted. A "single disclosed species" is defined as a single nucleic acid molecule comprising a BRCA2 sequence with a single defined nucleotide position. Only claims drawn to the elected nucleic acid/nucleotide

Art Unit: 1655

position species and claims drawn to a nucleic acid encoding the amino acid residue corresponding to the elected nucleotide species will be examined.

4. By statute, "[i]f two or more independent and distinct inventions are claimed in one application, the Commissioner may require the application to be restricted to one of the inventions." 35 U.S.C. 121. Pursuant to this statute, the rules provide that "[i]f two or more independent and distinct inventions are claimed in a single application, the examiner in his action shall require the applicant . . . to elect that invention to which his claim shall be restricted." 37 CFR 1.142(a). See also 37 CFR 1.141(a).

Nucleotide sequences encoding different proteins are structurally distinct chemical compounds and are unrelated to one another. These sequences are thus deemed to normally constitute independent and distinct inventions within the meaning of 35 U.S.C. 121. Absent evidence to the contrary, each such nucleotide sequence is presumed to represent an independent and distinct invention, subject to a restriction requirement pursuant to 35 U.S.C. 121 and 37 CFR 1.141 *et seq.*

5. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

#### NOTICE TO COMPLY WITH SEQUENCE RULES

6. The reply filed June 1, 2001 is not fully responsive to the communication mailed December 1, 2000 for the reason(s) set forth on the attached Notice To Comply With The Sequence Rules or CRF Diskette Problem Report.

Since the above-mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH** or **THIRTY (30) DAYS**, from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME LIMIT MAY BE GRANTED UNDER 37 CFR 1.136(a).
